

MARTÍN COSIMANO

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA.

October 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Breaking Waves Co E-commerce(Fullstack Web App) – Clothing e-commerce company, where customers can create an account, login and buy products.

Animated Avatar Generator (Fullstack Web App) – Users can generate a random avatar from typing anything in the input field. Also they can press the heart button to save the avatar on a list that's shown below, where users can upvote or delete it.

Other Projects: Ice Cream Kingdom Co, WarcraftLogs, On-demand background color changer for Partnered Twitch streamer, and many more.
