

# MARTÍN COSIMANO

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Los Angeles, CA.

October 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

### Recent Projects:

**Sound Up** – Social network for music lovers to share songs and interact with each other, using the Spotify API for a vast selection of music. Enables users to interact with each other by liking or commenting on posts.

**Breaking Waves Co E-commerce(Fullstack Web App)** – Clothing e-commerce company, where customers can create an account, login and buy products.

**Animated Avatar Generator (Fullstack Web App)** – Users can generate a random avatar from typing anything in the input field. Also they can press the heart button to save the avatar on a list that's shown below, where users can upvote or delete it.

**Other Projects:** Ice Cream Kingdom Co, WarcraftStatistics, On-demand background color changer for Partnered Twitch streamer, and many more.
